It focuses on the basic theory and practice of speech coding. This section starts with a thorough discussion of the fundamental elements of speech coding: linear prediction. Linear prediction is a basic technique for estimation of the coefficients of autoregressive (AR) filter coefficients. Digital Speech Transmission: Enhancement, Coding, and ... - Advanced speech processing algorithms help to mitigate a number of physical and technological limitations such as background noise, bandwidth restrictions, shortage of radio frequencies, and transmission errors. Digital Speech Transmission provides a single-source, comprehensive guide to the
